ABOUT ME

Full-stack Software Engineer with 5+ years building production mobile/web systems (Flutter, Node.js, React) and deploying ML-powered features via Flask/Docker. Currently building CRM/POS systems for a European client and leading backend architecture for a logistics startup (TransiGo).

EXPERIENCE

Remote Flutter Developer

Oct 2025 – Present | Remote

European Client (France Market)

- ✓ Develop and maintain a cross-platform CRM and Point-of-Sale (POS) application using Flutter for mobile, web, and desktop platforms.
- ✓ Extend an existing production codebase by implementing new features, fixing issues, and improving application performance.
- ✓ Integrate REST APIs and collaborate with backend services to deliver reliable business workflows.
- ✓ Improve user experience through UI enhancements, state management optimization, and responsive design.
- ✓ Follow clean architecture principles and maintain scalable, maintainable Flutter solutions.

Flutter & Full-Stack Software Developer

Dec 2024 – Present | Remote

TransiGo – Logistics Platform

- ✓ Develop mobile applications using Flutter and web applications using React.js for logistics management solutions.
- ✓ Build backend services, REST APIs, authentication systems, and business workflows.
- ✓ Implement logistics features including shipment management, booking, fleet operations, and driver tracking.
- ✓ Integrate Firebase services, MySQL databases, Node.js APIs, and Docker-based environments.
- ✓ Contribute to system architecture improvements focused on scalability, reliability, and performance.
- ✓ Integrated machine learning solutions through Flask APIs for model inference and intelligent features.
- ✓ Designed and deployed a scalable backend architecture using microservices and Docker containers.
- ✓ Managed production infrastructure across two VPS servers, separating application services and database workloads.
- ✓ Configured CI/CD workflows, server environments, and automated deployments for reliable releases.

Freelance Software Developer

Sep 2021 – Dec 2024 | Remote

Fiverr, Upwork & Direct Clients

- ✓ Delivered custom mobile and web applications for clients in logistics, healthcare, e-commerce, and business management.

- ✓ Developed cross-platform applications using Flutter with integrated backend solutions.
- ✓ Created REST APIs, admin dashboards, authentication systems, and payment integrations.
- ✓ Implemented real-time features including chat, push notifications, cloud synchronization, and live tracking.

Architectural Design & Sales Assistant

Jan 2019 – Aug 2022

Setif, Algeria

- ✓ Assisted architects and engineers with technical design requirements, material selection, and 2D/3D visualizations using AutoCAD.
- ✓ Prepared technical documentation and construction plans while providing customer support and technical guidance on design tools.

EDUCATION

Master's Degree in Data Engineering and Web Technologies

2023-2025

University of Ferhat Abbas Setif - 1, Setif, Algeria

- ✓ *Focus:* Data Engineering, Web Technologies, Machine Learning, AI Systems

Bachelor's Degree in Information Systems and Computer Sciences

2020-2023

University of Ferhat Abbas Setif - 1, Setif, Algeria

- ✓ *GPA:* 13.5 / 20 (3.0 / 4.0)
- ✓ *Relevant Courses:* Databases, Software Engineering, Computer Networks

PROJECTS

Creative – Architect Portfolio Website

A creative and modern portfolio website for an architecture business, designed to showcase projects with a strong focus on visuals, layout, and user experience.

- ✓ **Technologies:** React (Frontend), Node.js & Express.js (Backend API), PostgreSQL (Database)
- ✓ **Features:** Project showcase gallery, responsive visual-first layout, dynamic content management, optimized UX for portfolio browsing
- ✓ **Role:** Full-stack Developer

E-Commerce Mobile Application

An online shopping mobile app allowing users to browse products, add to cart, and make orders.

- ✓ **Technologies :**Flutter (Frontend), PHP (Native Backend), MySQL, Firebase for push notifications
- ✓ **Features:** Product catalog, user authentication, cart, order tracking
- ✓ **Role:** Full-stack Developer

Doctor Appointment & Chat App

A mobile app to help patients book appointments with doctors and communicate via real-time messaging.

- ✓ **Technologies :** Flutter, Firebase (Firestore, Authentication, Realtime Messaging)
- ✓ **Features :** Doctor listing, appointment booking, live chat
- ✓ **role :** Mobile App Developer

Blood Donation Connector App

A community - focused mobile app that connects blood donors with people in need of blood.

- ✓ Technologies : Flutter, Firebase,
- ✓ Features : Donor registration, blood request notifications, real - time location matching
- ✓ role : Mobile App Developer

SKILLS

Languages & Frameworks

- **Languages:** Python, JavaScript, Dart, PHP
- **Backend:** Node.js, Express.js, Flask
- **Frontend & Mobile:** React, Flutter (GetX, bloc/cubit, mvc, mvvm)

Data & Machine Learning

- **Libraries:** NumPy, Pandas, Matplotlib, scikit-learn
- **Techniques:** K-Means Clustering, GNN, ANN, Recommender Systems
- **Deployment:** Flask REST APIs for model inference and integration

Databases & Cloud

- **Databases:** postgresSql, MySQL (relational design & management)
- **Firebase:** Firestore, Authentication, Realtime Database, Push Notifications

DevOps & Tools

- **Docker:** Dockerfiles, Docker Compose, multi-service containerization
- **Version Control:** Git, GitHub (branching, pull requests, issue tracking)
- **Infrastructure:** VPS deployment, CI/CD pipelines

Typesetting & Documentation

- **L^AT_EX:** Technical documentation, complex equations, data tables

Languages

- **Arabic:** Native
- **French:** Intermediate (spoken and written)
- **English:** Intermediate (spoken and written)

CERTIFICATIONS & AWARDS

Entrepreneurship Training Program

2025

Incubator – University Ferhat Abbas Sétif - 1 | Sétif, Algeria

- ✓ Completed hands-on training in business model development, startup strategy, and innovation.

Startup Label – TransiGo

2025

Ministry of Knowledge Economy and Startups | Algeria

- ✓ Officially recognized and labeled as an innovative project for the project *TransiGo*.

English Language Course

2023

ADHOC Institute | Sétif, Algeria

- ✓ Completed intermediate to advanced level English training, focusing on communication and technical vocabulary .
